What Snook & Co. Say About Furs.

UNQUESTIONABLY the finest furs shown in this or any other city can be seen at this store. We don't claim to sell ALL the fine furs, but we do claim to sell ALL fine furs at LOWER prices than others—no GOOD style missing from our magnificent collection.

First of All,

want to call your attention to ONE IMPORTANT feature of our line. It is this: All collars are blocked to shape desired—have no cross seams. Experts know that collars made in this manner will retain any position in which they are rolled—a most IMPORTANT feature, we repeat, and one NOT to be found in all lines.

Why risk purchasing Furs elsewhere.

Shapes Which Seem to Lead

are Victorines and Scarfs, the former to wear over Suits, the latter to wear over Jackets, but we also have other good shapes, including Capes of every length and Jackets in their simplest forms, all made of furs that were bought to maintain our reputation as Wheeling's leading fur sellers.

Can you afford to risk on experiment?

Golf Capes

arriving daily. You will also find that equally scarce article—plaid back Golf Suits here from \$1.25 yard up.

SOLE SELLERS OF THE FAMOUS P. & P. KID GLOVES.

NASH AND GILL

Are the Speakers for the Great Mass Meeting in Bellaire

TO BE HELD THIS EVENING.

The Only Opportunity Given the People of the Upper Ohio Valley to Hear the Republican Standard Bearer in the Ohio Campaign—The Bellaire Folks are Making Elaborate Preparations for the Meeting.

The first and only opportunity for the people in this section to see and hear Judge George C. Nash, the Republican candidate for governor of Ohio, this campaign, will be afforded by the meeting at Bellaire this evening. He is an able and manly speaker, and he has aimed to reach every one of the eighty-eight counties of his state. The visit to Bellaire this evening is made the occasion for a great gathering, but the absence of a good hall there makes an open air meeting necessary unless the weather is bad. A large covered platform has been erected adjacent to the Dollar Savings bank, a desirable place with good weather. Hon. J. J. Gill, the Republican candidate for Congress, who made such a splendid speech at Bridgeport Thursday night, will preside at this meeting and make a brief opening address. Then will follow in order Judge Nash, Congressman White and Taylor. All of these speakers are men of experience on the platform and in the role of orators, and it is believed a great treat is in store for those who attend. Crowds are coming in from out along the Bellaire, Zanesville and Cincinnati and the Baltimore and Ohio railroads and arrangements to get everybody home after the meeting are complete. It is expected quite a large Wheeling delegation will be present to greet the next governor of Ohio, and also the next congressman from the old Sixteenth district. Mr. Gill, by the way, is rapidly demonstrating that he is just the man to fill that place with credit to himself and honor to the district as a representative from the business men's standpoint. He does not pose as an orator, but as a candidate from the ranks of those who are in close practical touch with business interests and with the great arteries of the modern commercial world. Just such men are always needed in the committee room and around the counsel table, and how much more they will be needed when the problems pertaining to the wider scope and expanding views of American commerce come to the front only the future can develop.

Heatherington's full brass band will furnish music for the meeting to-night, and red fire will be burned in large quantities.

TAKING AN INVOICE.

Significant Move by two Representatives of the United States Glass Company Yesterday—Spent the day at the Hobbs.

That the movement on foot to purchase the old Hobbs glass plant on the South Side is being considered seriously, was evidenced yesterday by the arrival in the city of two representatives of the United States Glass Company, and the fact that they made a complete invoice of the stock in the old factory and made particular note of everything from a spade to a doorknob that was of any value about the plant. The two gentlemen arrived in the city early in the morning and went directly to the factory and there, accompanied by Mr. A. G. Frohne, made a complete tour of the place, and then the stock of patterns, etc., which still remains in the factory, which at one time was second to none in the country. The whole day was consumed in the work, and it is probable that a lower figure may be fixed by the United States people and a bargain struck before long.

The representatives of the United States company refused to talk of the affair last night, but the fact that they were here, shows that developments may be expected in a few days.

BRIEF MENTIONINGS.

Events in and About the City Given in a Nutshell.

Matinee at the Grand to-day.
Work on the new coke ovens at the Riverside steel plant is being pushed rapidly.

The boys at the Island house have completed the re-papering, which is a creditable improvement.

Arrests by the police yesterday afternoon included Tom Dunn, for begging, by Officer Ingram, and an "unknown" drunk by Officer Walker.

The city collector's office will be open from 8 a. m. until 3 p. m. to-day, to accommodate persons desiring to pay their city taxes and save the discount.

It would not be a bad idea for the board of public works to have the principal streets washed off now before the cold weather sets in. They need it.

A large number of Wheeling people will go down to Bellaire to-night to hear Judge Nash, the Republican candidate for governor speak on the issues of the campaign.

J. T. Huseman was given a ride in the patrol wagon last night, by Officer Wells, for trying to clean out Alley C. William Jones was also in the lock-up, charged with disorderly by Officer Walker.

A cylinder head was blown out of the electric light plant engine at Schumacher's brewery last Tuesday and the brewery has been running without incandescent light since. The repairs will be finished to-day.

The dense smoke from the numerous forest fires has caused many smarting eyes about the city during the past three days. It was not quite so bad yesterday as it is now, but actually visible most of the afternoon.

The men's meeting at the Young Men's Christian Association building Sunday afternoon, at 4 o'clock, will be in charge of Rev. C. H. Maloney, the new pastor of Zane street M. E. church. Rev. Maloney was for several years general secretary of the Y. M. C. A. at Charleston.

The Mountain State Electrical Company yesterday removed the incandescent bulbs from the street arches. So far the promoters of the idea to keep the arches up and have them illuminated every Saturday night, have not met with the success which their efforts merit, and unless the merchants respond more liberally than they have, the arches will be taken down and stored away until the next "big doing."

Coeur de Leon Company No. 1, Uniform Rank, Knights of Pythias, has appointed an amusement committee and at a meeting held last night it was decided to give a Pythian minstrel entertainment at the Opera House during the last week in November, or the first of December. Some of the best talent in the city has already been secured and a first class entertainment may be expected. A grand military ball will be given by this company at Pythian castle, Monday evening, November 6.

THEY ARE CROOKED.
A Man and Woman Under False Pretences at Philadelphia.
A telegram was received yesterday afternoon by Chief of Police Clemens from Superintendent Harry M. Quirk, of the Philadelphia police department, as follows: "Ascertain from industrial school, your city, whether they have a man named W. A. Lathrop and wife, soliciting subscriptions for them in Philadelphia."

Chief Clemens interviewed President Harriet B. Jones, of the West Virginia Industrial school, who disavowed responsibility for any subscriptions being solicited in Philadelphia on behalf of the state institution.

THE Wheeling Business College is enjoying a season of remarkable prosperity. 210 names have been placed on the registers since September 1 and 54 have been placed in situations.

To Make An Impression

A young man's clothes must be just exactly right; it is not enough that they are well made; desirable as that consideration; they must have a certain style, a proper look, and that is where our Clothing is so far away superior. The young man who has always thought he must have his clothes made to measure by an exclusive tailor doesn't know until he tries how much he can save him in money without any sacrifice of correct ~~fit~~ and fashion. Our Clothing is in fact practically made to your measure; we make any alteration just exactly as the tailor does, and we guarantee a satisfactory fit as unqualifiedly as we guarantee the quality of the material employed.
